Washington, D. C., July 13 .- The sessions of the Federal Court at Alexandria this week have served to bring most of the leading Republicans of the State of Washington. Besides Judge Lewis and Judge Waddell, there is Col. Slemp and Chairman Slemp, Morgan Treat, Asa Rogers, Jeb Stuart, and a half Cozen others of prominence. Naturally, when they meet together at night around the Washington hotels, they discuss the forthcoming State campaign.

These discussions show that the plan is pretty well made up, and that the labors of the Roanoke Convention will be light. The ticket is pretty well mapped out, and will be headed by Judge Lewis. John Acker, of Rockingham, is the man give the afficted public some relief proposed to be nominated for Lieutenant Governor. ### THE TOLL GATES DOWN THE PIKE

The Valley Tumptke grows in our estimation. One must study it to become truly proud of the genius with which it is managed. Last week we hauled material over it which cost us ten dollars and twelve cents, and the toll to get that material eight miles was just four dollars and seventy-six cents. But the empty wagons would have cost just as much. It makes no difference about what one hauls. The loads we speak o could have been worth one cent, a d yet the toll would have been tour dollars and seventy six cents.

We have not traveled over the whole pike from Staunton to the West Virginia State line-we never expect to. None but millionaires could make the journey. It there a ethree toll gates to every eight miles, as there are on the first eight miles out of Staunton, we would much prefer from a financial point of vew to go to California. It is pos sible 100 miles from Staunton to the West Virginia line north at Winchester-eight into one hundred goes 121 times. This would bumb us up against about 38 toll gates in that short space, if placed at the same rel ative distance from each other as are those on the first eight miles out o Saunton. When one starts over this lovely journey he never puts his pocket book in bis pocket. He can see the next toll collector looking out for him before he has finished paying the last one, so he holds his fast disappearing cas's where it is as they started by railroad from convenient to hand to the ladylike Dover. and geutlemanlike collectors of this "Trust," the biggest little trust we have ever encountered. This trust this carmiverous trust, Rockefeller and Arn our are not in it opportunities considered-just lavs for Staur ton. They have crowded their gates right up against the town, it makes no difference that one is going a mile they charge full toll for a section or half section, as the case may be. Usually other corporations give value received, that is they charge for what you are supposed to get. But the turnpike company charges not for

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable recorda breathing, thinking, moving monument, composed of human lives,-that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble; in fact I am a traveling advertisment, for I am widely known in this locality."
